

Dr. Arya Sree R Nair

Dr. Arya Sree R Nair is an enthusiastic, young, and budding ENT surgeon from Kerala.

She has completed her M.B.B.S. from the Government Medical College in Thoothukudi, Tamil Nadu. She has always given importance to the latest developments in the field of medicine, presented seminars & delivered speeches at various CME events like Allergic fungal sinusitis, Steroids versus antifungals, the role of endoscopy in the evaluation of swallowing, etc.

Worked as a medical practitioner in ESIC hospitals in Kollam before becoming interested in otorhinolaryngology, and she pursued her Master's in Surgery at the prestigious Amrita Institute of Medical Science in Kochi, earning a gold medal. (M.S ENT). During her master's course, she focused on swallowing issues in newborns and therapy options. She has expertise in treating breathing disorders

in children and adults and focuses more on endoscopic nasal surgeries.

Being a doctor, she strongly believes that with her level of confidence and empathic communication, any ailment may be treated successfully. As a result, she does her best to help them understand their medical condition.

Dr. Arya is very interested in social service. She participated in Rotary International's Pulse Polio Immunization Campaign as well as medical camps throughout the state. She devoted her spare time to services such as palliative care for cancer patients.

She is passionate about dancing and believes that dancing is the language of the soul, She has been awarded as the best dancer at state competitions and many other times.

She is also a member of the AOI Cochin chapter in Kerala.

Some achievements that give her an edge in her field

1. Gold medal MS ENT(Amrita institute of medical science)
2. Gold medal in KENTcon for poster and paper presentation in 2021
3. Gold medal in Paper presentation (SAVENT 2020)

She is trained by the best mentors in the below subjects

1. Basic life support
2. Trauma life support
4. Lifestyle disease
4. Biomedical research course (Medical council of India)

Long-term vision:

Dr. Arya aims to specialize in hearing loss and its advanced treatment possibilities, like cochlear implantation.
